ECOsmarte's Rainwater or Grey Water System In-Line Model

1,250 GPD
Larger Models Available
Retail Price - \$7,995

- **1 ECOsmarte DC Voltage Control Box**
 - WQA GOLD SEAL listed component.
 - A DC voltage controller that energizes only when water is flowing by communicating to the Pentair Water Valve and the ECOsmarte Anode Chamber.

- **1 ECOsmarte Copper/Oxygen Anode Chambers (Sch40)**
 - One pair of self-sacrificing copper plates to generate low level .1ppm to .2ppm copper to travel in the water from point-of-entry to point-of-use.
 - One pair of titanium/platinum anodes to generate O2 oxygen. The oxygen makes heavy metals and inorganic chemicals easier to filter.

- **1 Hayward 244T Sand Filter (300 LB)**
 - Glass Pack® Filter Media
 - Top Mount Multiport Backwash Valve w/ Gauge

- **1 Pentair 2510 SXT Programmable and Metered Water Valve**
 - WQA GOLD SEAL listed component.
 - The Pentair Digital SXT Metered Water Valve and Media Tank communicate directly with the ECOsmarte Valve and Meter.
 - The system rinses every 350 gallons with no brine or chloride discharge and is compliant with current and proposed County and State bans on chloride discharge.
